Collingwood College

Administer Medication Policy

Document Version: V1
Last Updated: 25/5/23
Date ratified by School Council: 25/5/23

Document Status: Published
Review By: Sam Luck

Rationale

If a student requires medication, Collingwood College encourages parents to arrange for the medication to be taken outside of school hours. However, Collingwood College understands that students may need to take medication at school or school activities. To support students to do so safely, Collingwood College will follow the procedures set out in this policy.

Purpose

To explain to parents/carers, students and staff the processes Collingwood College will follow to safely manage the provision of medication to students while at school or involved in school activities, including camps and excursions.

Scope

This policy applies to the administration of medication to all students. It does not apply to:

- the provision of medication for anaphylaxis which is provided for in our school's Anaphylaxis Policy
- the provision of medication for asthma which is provided for in our school's Asthma Policy
- specialised procedures which may be required for complex medical care needs.

Policy

Authority to Administer

If a student needs to take medication while at school or at a school activity:

- Parents/carers will need to arrange for the student's treating medical/health practitioner to provide written advice to the school which details:
  - the name of the medication required
  - the dosage amount
  - the time the medication is to be taken
  - how the medication is to be taken
  - the dates the medication is required, or whether it is an ongoing medication
  - how the medication should be stored
  - how often the medication needs to be taken.

Postal Address: Private Bag 63, Abbotsford, VIC, Australia 3067
Phone: (+61 3) 9417 6681 Fax: (+61 3) 9416 1279

- in most cases, parents/carers should arrange for written advice to be provided in a Medication Authority Form which a student's treating medical/health practitioner should complete
- if advice cannot be provided by a student's medical/health practitioner, the principal (or their nominee) may agree that written authority can be provided by, or the Medication Authority Form can be completed by a student's parents/carers
- the principal (or their nominee) may need to consult with parents/carers to clarify written advice and consider student's individual preferences regarding medication administration (which may also be provided for in a student's Student Health Support Plan).

Parents/carers can contact the school administration office for a Medication Authority Form.

Administering medication

Any medication brought to school by a student needs to be in its original packaging and clearly labelled and in-date with:

- the student's name
- the dosage required
- the time the medication needs to be administered
- how often the medication needs to be taken.

Parents/carers need to ensure that the medication a student has at school is within its expiry date. If school staff become aware that the medication a student has at school has expired, they will promptly contact the student's parents/carers who will need to arrange for medication within the expiry date to be provided.

If a student needs to take medication at school or a school activity, the principal (or their nominee) will ensure that:

1. Medication is administered to the student in accordance with the Medication Authority Form so that the student:
   - receives their correct medication
   - in the proper dose
   - via the correct method (for example, inhaled or orally)
   - at the correct time of day.
2. A log is kept of medicine administered to a student.
3. Where possible, two staff members will supervise the administration of medication.
4. The teacher in charge of a student at the time their medication is required:
   - is informed that the student needs to receive their medication

Phone: (+61 3) 9417 6681 Fax: (+61 3) 9416 1279

- if necessary, release the student from class to obtain their medication.

Self-administration

In some cases it may be appropriate for students to self-administer their medication. The principal (or nominee) may consult with parents/carers and consider advice from the student's medical/health practitioner to determine whether to allow a student to self-administer their medication.

If the principal (or nominee) decides to allow a student to self-administer their medication, the principal (or nominee) may require written acknowledgement from the student's medical/health practitioner, or the student's parents/carers that the student will self-administer their medication.

Storing medication

The principal (or their nominee) will put in place arrangements so that medication is stored:

- securely to minimise risk to others
- in a place only accessible by staff who are responsible for administering the medication
- away from a classroom (unless quick access is required)
- away from first aid kits
- according to packet instructions, particularly in relation to temperature.

For most students, Collingwood College will store student medication at the front office sick bay areas.

The principal (or their nominee) may decide, in consultation with parents/carers and/or on the advice of a student's treating medical/health practitioner:

- that the student's medication should be stored securely in the student's classroom if quick access might be required
- to allow the student to carry their own medication with them, preferably in the original packaging if:
  - the medication does not have special storage requirements, such as refrigeration
  - doing so does not create potentially unsafe access to the medication by other students.

Warning

Collingwood College will not:

Corner Cromwell St and McCutcheon Way, Collingwood, VIC, Australia 3066
Postal Address: Private Bag 63, Abbotsford, VIC, Australia 3067
Phone: (+61 3) 9417 6681 Fax: (+61 3) 9416 1279

- store or administer analgesics such as aspirin and paracetamol as a standard first aid strategy as they can mask signs and symptoms of serious illness or injury
- allow a student to take their first dose of a new medication at school in case of an allergic reaction. This should be done under the supervision of the student's parents, carers or health practitioner
- allow use of medication by anyone other than the prescribed student except in a life- threatening emergency, for example if a student is having an asthma attack and their own puffer is not readily available.

Medication error

If a student takes medication incorrectly, staff will endeavour to:

Step	Action
1.	Follow first aid procedures outlined in the student's Health Support Plan or other medical management plan.
2.	Ring the Poisons Information Line, 13 11 26 and give details of the incident and the student.
3.	Act immediately upon their advice, such as calling Triple Zero "000" if advised to do so.
4.	Contact the student's parents/carers or emergency contact person to notify them of the medication error and action taken.
5.	Review medication management procedures at the school in light of the incident.

In the case of an emergency, school staff may call Triple Zero "000" for an ambulance at any time.

First Aid, Health Care Needs, Medication Authority Form, Medication Administration Log

Communication

This policy will be communicated to our school community in the following ways:

- included in staff induction processes
- available publicly on our school website.
